Planning notes

Door hinge not reversible.
The door panel surface of the
appliance extends 47 mm from the
furniture cavity.
The outer edge of the door handle
extends 94 mm from the furniture
cavity.
Consider the overhang, incl. the door
handle, when planning to open drawers
next to the appliance.
When planning a corner solution, pay
attention to the 90° door opening
angle.
To achieve the 550 mm installation
depth, the connection cable needs to
follow the slanted edge on the lower
right hand corner of the housing.
The mains socket needs to be planned
outside of the built-in niche.
